1 Match the spelling patterns with the words and complete the table.

~~boat~~ ~~cold~~ elbow hippo mosquitoes nose phone
road snow sofa throat toe window wrote volcanoes

1 ow	2 o	3 oe	4 oa	5 o_e
	cold		boat	

2 Read the information text. Match the topic sentences with the paragraphs.

(A) 3 They grow to over 1.5 metres tall – sometimes much taller. In 2009, a German man's sunflower grew over 8 metres tall!

(B) __ The flower's petals are usually yellow, but they can be orange or brown. They've often got a dark circle in the middle. They're called sunflowers because the shape and colour of the flowers is like the sun.

(C) __ Birds and people eat them, and people also use them to make sunflower oil. We use sunflower oil for cooking and cosmetics.

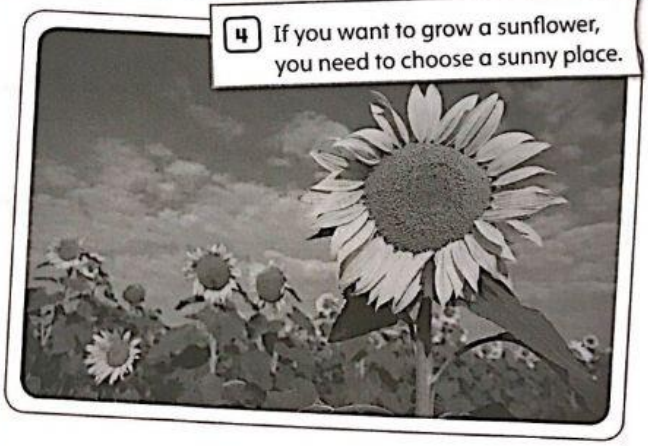

(D) __ In spring, make a hole in the soil and plant the seed 2 centimetres deep. Water the seed and don't let weeds grow. Look out for snails: they like to eat small sunflower plants!

1 Sunflower seeds are very useful.

2 Sunflowers have got large flowers, hairy stems and rough leaves.

3 Sunflowers are tall plants.

4 If you want to grow a sunflower, you need to choose a sunny place.

3. Read the text again. Choose the words with /əʊ/ sound

(A) 3 They grow to over 1.5 metres tall – sometimes much taller. In 2009, a German man's sunflower grew over 8 metres tall!

(B) __ The flower's petals are usually yellow, but they can be orange or brown. They've often got a dark circle in the middle. They're called sunflowers because the shape and colour of the flowers is like the sun.

(C) __ Birds and people eat them, and people also use them to make sunflower oil. We use sunflower oil for cooking and cosmetics.

(D) __ In spring, make a hole in the soil and plant the seed 2 centimetres deep. Water the seed and don't let weeds grow. Look out for snails: they like to eat small sunflower plants!
