Topic: *How a scientist works?*

Group:

Directions: Complete the KWL table below. Use as many key words and ideas as you can. In the **K** column, write what you already know about how a scientist works. In the **W** column, write what you would like to learn and what makes you curious about how a scientist works. At the end of the lesson write what you have learnt about how a scientist works in the **L** column.
