Reading Time

Which subway system has the most lines?

LONDON UNDERGROUND

Everyone recognizes this one! It was designed by Harry Beck nearly 100 years ago. As well as the 13 underground lines, the map contains information about London's trains, trams and cable car system.

NEW YORK SUBWAY

The map of the New York subway, which has 12 lines, has changed many times. The modern design is not the same as London's. It looks like a real map, with **streets**, parks and rivers. New York has a second map for late night subway services.

LIVEWORKSHEETS

TOKYO SUBWAY

This is a great map because it's so complicated. Tokyo's transport system is the busiest in the world with 14 lines and 282 stations.

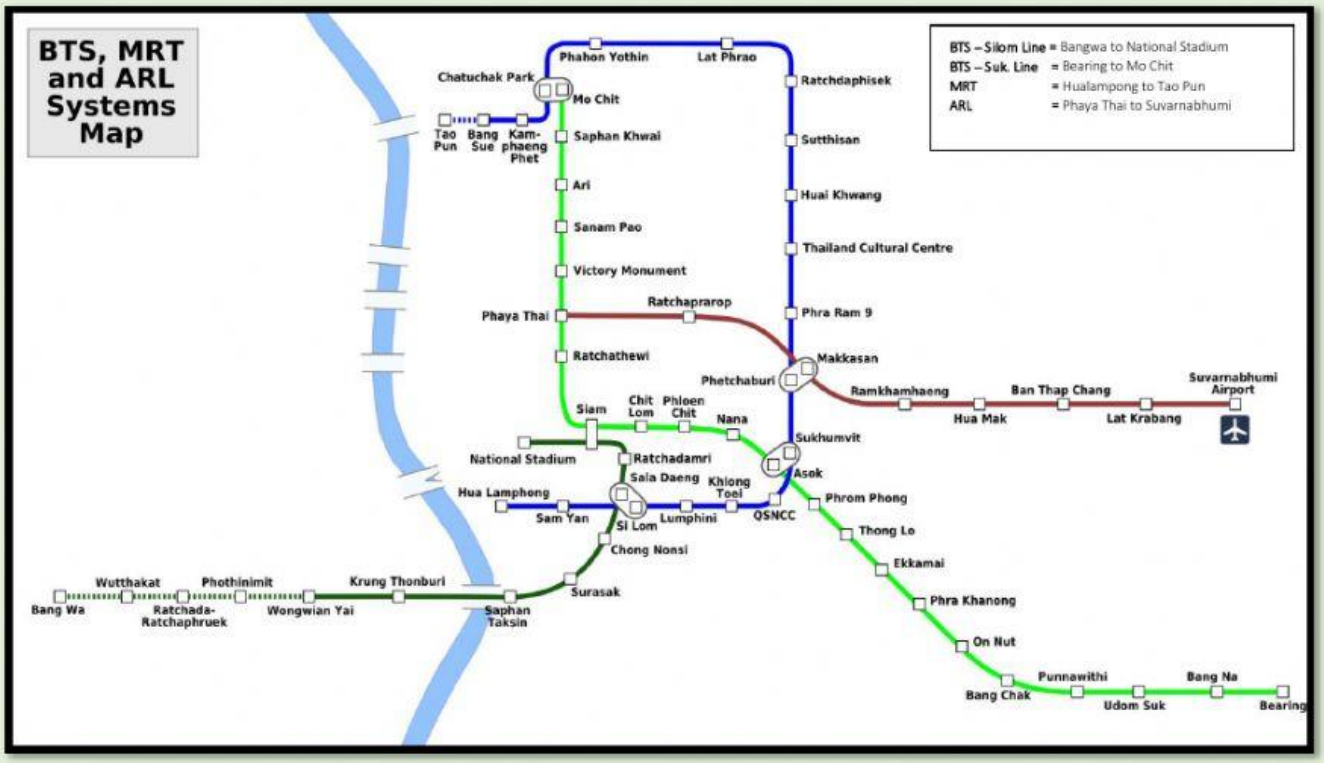

Drag and drop the following information to the correct box below.

It has a second map for late night services.	Contains information about trams, trains and cable car system	It has 282 stations.
It's the busiest in the world.	It has 14 lines.	It looks like a real map.
Has 13 underground lines.	It has 12 lines.	Designed by Harry Beck.
It's complicated.	It changes many times.	It's 100 years old.
