

Guía Interactiva 5: Taller de matemática

Nombre: _____

Curso: 6to

1. Resuelve las siguientes divisiones aplicando algoritmo.

$$\begin{array}{r} 154 : 2 = \square\square\square \\ \begin{array}{r} - \square\square\square \\ \hline \square\square\square \\ - \square\square\square \\ \hline \square\square\square \\ - \square\square\square \\ \hline \square\square\square \end{array} \end{array}$$

$$\begin{array}{r} 324 : 3 = \square\square\square \\ \begin{array}{r} - \square\square\square \\ \hline \square\square\square \\ - \square\square\square \\ \hline \square\square\square \\ - \square\square\square \\ \hline \square\square\square \\ - \square\square\square \\ \hline \square\square\square \end{array} \end{array}$$

$$\begin{array}{r} 450 : 5 = \square\square\square \\ \begin{array}{r} - \square\square\square \\ \hline \square\square\square \\ - \square\square\square \\ \hline \square\square\square \\ - \square\square\square \\ \hline \square\square\square \end{array} \end{array}$$

$$\begin{array}{r} 552 : 6 = \square\square\square \\ \begin{array}{r} - \square\square\square \\ \hline \square\square\square \\ - \square\square\square \\ \hline \square\square\square \\ - \square\square\square \\ \hline \square\square\square \end{array} \end{array}$$
