SCIENCE REPORT: CLASSIFICATION & BIODIVERSITY

1. **Title:** Science Report about Classification of Species
2. **Your name:**
3. **Question:** How can we use physical characteristics of species to classify living things?
4. **Theoretical framework**

Construct the **Theoretical Framework** of your report using the following questions:

b) Phylum that include invertebrates

-What are invertebrates?

- **For the characteristics:** [Life Science Book, NatGeo Platform, pages 20 to 25](#)

-Describe the characteristics of each **Phylum** of invertebrates

<p>Phylum Porifera (sponges)</p> 	
---	--

<p>Phylum Cnidaria (Jellies, anemone and corals)</p> 	
<p>Phylum Annelidae (worms)</p> 	
<p>Phylum Mollusca (Snails and Octopuses)</p> 	
<p>Phylum Echinodermata (Sea stars)</p> 	
<p>Phylum Arthropoda (insects, arachnids, crustaceans)</p>
