Match the question words with their use

What?	
Why?	
When?	
How?	
Where?	
Who?	

1. locates an action or event in space.
2. requires cause and effect and logical connections. It can also help to think of explanations.
3. often asks for noun responses, things that are or will be. It may also ask for verbs when referring to actions.
4. asks to connect actions and things with people. It includes 'stakeholders', who are all the people with an interest in the action.
5. implies a specific time or a duration or a period of time.
6. needs verbs of process and looks at deeper details of what has happened or what will happen.
