Day: _____ The History of Communication Date: _____

Telephones

A. Arrange the pictures to show the earliest telephones to the latest ones.

1880s	1940s	1960s	1980s

1980s	2000s	2020s

B. Read about the history of telephone and answer the questions in complete sentence.

The Telephone

Alexander Graham Bell invented the telephone in 1876. Telephones made communication easier and faster.

Phones in the past were very different from the phones we have now. Very old phones were big and fixed to a wall. They were made out of wood and looked like a big box. Now phones are smaller and they have buttons. Modern phones are made out of plastic. We have mobile phones now. Mobile phones can fit in your pocket. You can use them anywhere. Today mobile phones are called smartphone as we can do many things with them. We can pay our bills, go online to search for something and many other things.

1. Who invented the telephone?

_____

2.When was the first telephone invented?

_____

3. What were old phones made out of?

_____

4. Where can you put a mobile phone?

_____

5. Where can you use a mobile phone?
