

Past Perfect

Past perfect is a compound verbal tense that we use to **talk about past events**, however, it is very special because we use it to talk about **actions that happened before a specific event or action in the past**. For using this verbal tense we need to be familiar with the past participle form of the verb; Ex: *eaten, drunk, driven, seen, gone, been, read, listened, pronounced, happened...* Remember that these verbs can be regular and irregular. In this case for structuring the past perfect we have to use the verb **Have** in past and the **past participle of the main verb**.

Ex 1: I **had already** gone when you arrived or

Ex 2: I forgot that I **hadn't taken** my umbrella when I left home this morning.
