B. State the function of the tools below

Allows you to choose printing and paper option	Allows you to import a bitmap image into the drawing area	Clears any bitmap pictures on the screen
Saves the current drawing under a different name	Saves the current drawing as an image	Prints the picture
To increase or decrease the size of the drawing area	Allows you to change the size of the drawing area	

C. Identify the name of the tool below by looking from its function below

Commander Font	ScreenColor	Label Font
PenColor	PenSize	FloodColor

The diagram shows a software interface with a menu bar containing 'Set', 'Zoom', and 'Help'. Below the menu bar are five input fields. Arrows point from descriptive text boxes to these fields:

- Top-left box: "Allows you to change the size of the pen" points to the top input field.
- Top-right box: "Allows you to choose a font" points to the second input field.
- Middle-left box: "Allows you to choose a font for the Commander window" points to the third input field.
- Middle-right box: "Allows you to change the colour of the pen" points to the fourth input field.
- Bottom-left box: "Allows you to change the colour of the fill tool" points to the fifth input field.
- Bottom-right box: "Allows you to change the colour of the screen" points to the bottom input field.
