

Lets read together a biography about the owner of Instagram, WhatsApp and Facebook!

Mark Elliot Zuckerberg was born on May 14, 1984 in Dobbs Ferry, New York. He grew up in a loving family.

He was very intelligent when he was a child and he became a programmer at the age of twelve. At the age of 17, he went to Harvard University and he was hired to create a social network called "The Harvard Connection".

While he was studying at Harvard, he had the idea to create Facebook with some friends.

On 2008, Facebook was an internet success, everybody had a Facebook account, and even Yahoo tried to buy it for ONE BILLION DOLLARS!

Facebook continued being very popular on the following years, and in 2010, the Times Magazine named him The Person of the Year. Forbes Magazine listed Zuckerberg as the 9th most powerful person in the world.

Today, Zuckeberg is a very popular person, he has a streaming profile on Facebook and sometimes he shows people his everyday life (and some people say he is from an alien species called "*Reptilian*"). More importantly, universities all over the world use his "Course-match" selection program everyday on their webpages.

He is one of the most intelligent and successful people in the world, but, ironically, Mark never finished his university studies, he is a college dropout!
