Long Vowels A, I and U

If a one syllable word has two vowels the first usually stand for the long sound and the second vowel is silent. If the first vowel is a, the word has the long a sound as in: cake, train, and tray. If the first vowel is i, the word has the long i sound as in: bike, dime, and pie. If the first vowel is u, the word has the long u sound as in: tube, glue, and fruit.
