

Smoking

Some people have the bad habit of smoking. They say that smoking helps them to think and forget their problems. This is not true.

Smokers smoke everywhere. They smoke in parks, streets, clubs and restaurants. It's difficult for nonsmokers to sit in a place that is full of the smell of cigarettes. In Egypt, we have a law that prevents smoking in some places like hospitals, schools, libraries and transport.

Smoking is very bad for the body systems. Smoking kills millions of people around the world every year. It can cause cancer. Smokers have yellow teeth. Their mouths, hair, clothes, furniture and cars smell very bad. Their skin is unhealthy. Their bones are easy to break. Smokers can get a cold easier than nonsmokers. They can't do sports because of their respiratory system problems. It's hard for them to climb up the stairs, so they always take the lift. Smoking sometimes makes people fat. It makes them nervous. When a woman smokes, it harms her baby. Her baby is born smaller than normal babies. Most fires around the world happen because of cigarettes. Those fires waste a lot of money.

Smokers pay money to harm their health. They always say that they can't stop smoking. This is not true. They should visit a doctor to help them stop smoking.
