

Fracciones

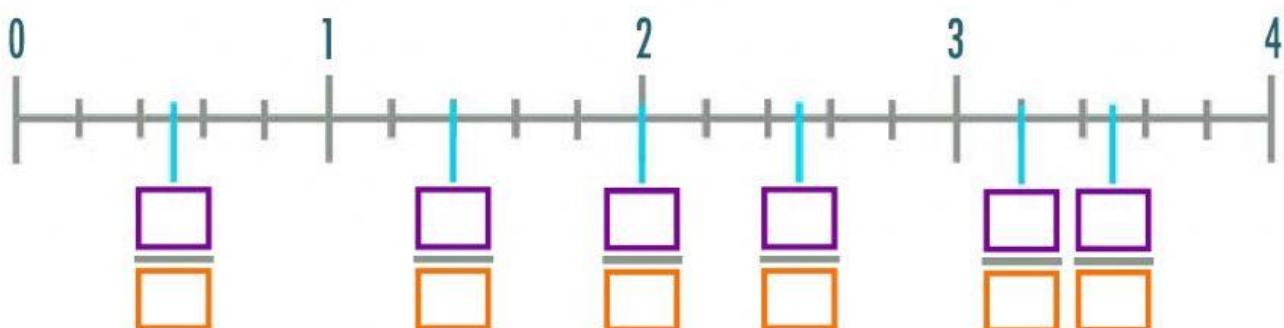

Representación de fracciones

Completa el gráfico.

Coloca la fracción según corresponda.

$$\frac{16}{5}; \frac{7}{5}; \frac{7}{2}; \frac{1}{2}; \frac{25}{10}; \frac{6}{3}$$

La fracción como cociente

Rearrange 4 among 5 friends:

$$\frac{\square}{\square} = \square$$

La fracción como operador

To calculate the fraction of a number, we multiply the numerator by the number and then divide the result by the denominator.

Calculate the $\frac{2}{3}$ of 60:

$$\frac{\square \times \square}{\square} = \square$$
