Topic: LIGHT AND COLOURS (Introduction to Rainbow)

Instructions to parents/guardians:

Step 1:

1. Parents are to **search on Google the picture of the Sun** and explain that **the light from the Sun is actually called "white light".**
2. Also tell them that **the "white light" from the Sun, is actually made up of different colours** and we are able to see the colours when they are broken up by tiny droplets of water and that makes up the rainbow.

Step 2:

1. Ask your child: *Do you know what makes up a rainbow?*
2. **Explain that *whenever there is sunshine after the rain, there will always be a rainbow*.**

Step 3:

1. Please search on Google, **a picture of rainbow**, pick the best one that shows each colour of the rainbow **CLEARLY** and tell them each of its names.
2. Share a quick way to remember the 7 colours of the rainbow;
   'ROY G BIV' or **'VIBGYOR'** which stands for each colours of the rainbow
   R – red
   O – orange
   Y - yellow
   G – green
   B – blue
   I – indigo
   V – violet
3. Please tell them that there is **NO PINK colour** in a rainbow.

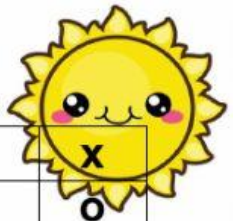

Step 4:

1. Recap : What makes up a rainbow? *(Sunshine and rain)*
2. Recap: Colours of the rainbow. *(ROY G BIV)*
