Most of us _____ to the world's environmental problems every day. In Britain, for example, an average adult _____ 11 tones of carbon dioxide per year. Harmful routines _____, among others, using cars, leaving electronic equipment on standby overnight, printing out numerous copies of a document instead of filing information on the computer, and many others. All this _____ a dramatic rise in global warming, which _____ not only to increased temperatures, but also to abnormal weather conditions such as flooding and drought. So is there anything we can do to be more ecofriendly? Nicole Wilson, a Birmingham nurse, _____ some good answers to this question.

She usually _____ to work or _____ public transport; she _____ only when she is on the night shift. She _____ the car for major shopping, but she does it only once a month, and even then she normally _____ it with a friend. To cut on domestic waste, she _____ newspapers, bottles, cans, even old shoes in the recycling bin provided by city council. She also _____ to keep domestic rubbish to a minimum. And now, as some of the domestic appliances come to the end of their life, she _____ to replace them with A-rated, energy-efficient models. Soon she _____ also, all her lightbulbs with energy-efficient ones. By doing all that she _____ she _____ about £ 500 a year, and also cut her household emissions from electricity use by more than 10 per cent.
