Living on a houseboat By Lilian Walstrom.

I'm 14 and I've always lived on a houseboat with my parents. We live on a lake near the city of Seattle in the USA. We've got a bathroom, kitchen, living room, and two bedrooms, My bedroom only has enough space for a bed and shelves for my clothes. But I can see the lake and sky from my window, and I love looking at nature from there.

When it's sunny, my parents sail our houseboat to the middle of the lake. This is the perfect place to go swimming and have a picnic. But if it's windy, we always sail to the beach because our boat will be safer there.

The lake is like my back garden, so I help to keep it clean. I often pick up plastic bottles that people leave behind. I do this because things like that can hurt the fish, birds and other small animals that live around the lake. I want them to stay safe and healthy

There's not much room on the boat but my friends still love coming over to visit. When I go to visit them, we watch films or programmes on TV. But on the houseboat, we'll chat while we do puzzles and have snacks that my dad makes for us.

I enjoy living in an unusual home and I've never wanted to live in a house or apartment. But I would prefer it if our boat was a bit larger, like our neighbours' boats. Some of them have two or three floors!
