

Read the passage below carefully and answer the questions that follow. 2.2.3(b), 2.3.1(b)

Three innovative pupils from Perak won a gold medal and four international awards at the International Innovation Invention Contest this year. They received the Honour of Invention by World Invention Association, Special Awards by International Invention and Innovation Association, Education and Learning Foundation and Malaysian Invention and Innovation Society. They were also presented the Gold Medal by the organiser.

The successful young inventors, namely Yong Soon, Ridwan and Vijaya were from SJK(C) Sin Hua. The pupils, all aged 12, were accompanied by their project teacher, Mr Lau. They invented a device to recycle shower water for gardening. It would help to save water and reduce water bill.

SJK(C) Sin Hua was the only school to have won a gold medal and four international awards at the competition. The young inventors had worked hard for about five months to complete the project. The headmaster of the school was happy and proud that the pupils from his school won the award. They had made Malaysia proud.

- 1 How many pupils from Perak took part in the contest?
A Three
B Four
C Five
D Six
- 2 The young inventors are _____ pupils.
A Year 3
B Year 4
C Year 5
D Year 6
