And I got lots of problems, medicated, solved 'em
Slowly I been falling, slowly I been falling (x2)

_____ all, in my head, I don't want, no more drugs
Voices all, in my head, I don't want, no more
Pain goes by when you _____don't think about…

I've been living by myself, my _____ saying find help
But therapy is kinda scary,

Couple feet right from my _____, if that's the end then I want out
I got lots of problems, medicated, solved 'em…

Voices all, in my head, I don't want, no more drugs…

Can you save me…
