TRANSCRIPT

Activity 1

Maria has 6 kids, each of them have a bad habit of doing things that are not good for the planet today Marias is yealling them about what they don't have or have to do .

Camila?

Yes, mother ?

Don't leave the water running when you are brushing your teeth.

Ok mother .

Sergio?

Yes mother,

water the plants , they are really dry!

Ok mother

Eduardo,

Stop being lazy and collect the rubbish, the rubbist truck is coming right now!!

Ok mom

Romina, look at your bedroom

What is it mom?

Switch the lights on and off please

No problem mom

Alejandra

Yes mom

Where are you going with that plastic bag?

To the mall

No, don't use plastic bag , they are really harmful

Alright mother

Cinthia

Why are you taking so long, you have been there for like an hour

I am taking a shower

Please, take short shower, we need to save water.

Ok ok I will

Activity 2

i.-Listen and choose the correct answer (6 points)

1.-What did Johan's mother to do?

Johan likes to help the planet, his mother also that that. The other day she was explaning some friends what she does to help the environment. She went to the recycling bin and reduce the amount of garbage produced by her family .

2.- What did Nataly's father ask to do ?

My father likes us to do things for the environment. He wants us to do different things for learning about the importance of chanching our habits. The other day he asked us to turn off the lights when they are not used in that way we can be better people and help.

3.-What did the mayor of the city request to the people to do?

The mayor of our city Virginia Reginatto talked in tv and metioned the we need to make a lot of changes in the city . It is really pollute because we use a lot of transportation or we just litter a lot. She asked us to not litter and try to reduce the garbage.

4.-What did Caroline's sister ask to do her to do?

My name is Alondra and my sister Caroline is trying to make us the our mind about the importance of helping the planet. She collects the rubbish or she switch the lights on and off when they are not used. But what she asked us to do is to bike more and drive less our cars so we can help the environment and be healthy at the same time.

5.- What did the teacher ask to her students?

Kids, we are facing a horrible problem in our planet we need to start over and change many things in our life. I would like you to borrow books at the library instead of buying new ones because trees are been cut in a terrible way, I know you already use the school bus and you volunteer in the school , so now go to the library and borrow books.

6.-What did the principal of the school ask the students?

Dear students as a principal of this school we need to do something for the environment , I have seen how technological you are and you use the computer , cellphones and use the save the energy system when you play videogames. So I will ask you to recycle the old cellphones and bring them here so we will send them to a recycling area.
