

Step 1

Is the soil in our backyard good for planting?

Step 2

If we plant a tree and it grows, then the soil in our backyard is good for planting.

Step 3

Let us plant the seeds here, and we will water them every day. We will also write down data on how they grow. Let us also find some information about soil.

Step 4

We found from the information that the soil in our backyard is loam soil, and the tree can grow well in it.

Step 5

The trees grew well, so the soil in our backyard is good for planting.

Let's Try This!

Match the measuring tools to their functions.

timer

weight scale

tape measure

ruler

graduated cylinder

1. A _____ is used for measuring water.
2. A _____ is used for measuring mother's waist.
3. A _____ is used for weighing aunt Nadia.
4. A _____ is used for timing a race.
5. A _____ is used for measuring the length of a pencil case.
