1. And all of the things that we had behind
2. And never really understood
3. And so it seems I broke your heart
4. And tore you open 'til the end
5. And your mother's favorite song
6. But I still know your birthday
7. 'Cause I can change my mind each day
8. 'Cause I can sometimes treat the people
9. Didn't mean to leave you
10. Don't realize how mean I can be
11. I didn't mean to try you on
12. I failed to see it from the start
13. I run away when things are good
14.
15. In ways that no one ever could
16. My ignorance has struck again
17. So I'm sorry to my unknown lover
18. Sorry I could be so blind
19. Sorry that I can't believe
20. Sorry to my unknown lover
21. Starts to fall in love with me
22. That anybody ever really
23. That I love like jewelry
24. The way you laid your eyes on me
25. And someone will love you
26. Someone will love you
27. Someone will love you
28. But someone isn't me
