

Name:

Date:

Large numbers are normally grouped in threes, starting with the ones place. They are separated by a comma. The tens and ones is hyphenated as well.

For example: 8, 743, 125

This is read as: eight million, seven hundred forty three, one hundred twenty-five.

Now try these:

Write the following in Word Form:

1. 1,433
2. 24,375
3. 195,832
