On tour with Jon Bon Jovi

I always have a coffee; Jon usually gets up between nine and ten in the morning. "I'm never at my best first things in the morning so I always have lots of coffee for breakfast", says Jon. Jon likes to keep fit. "I go to the gym four mornings a week and do weightlifting" he says. "I also run for about half an hour in the evening" Jon has lunch at one o'clock; he prefers ordinary Italian or American food. He eats a lot of junk food and he never diets.

In the afternoon he gives interviews. There are lots of journalists who want to interview him.

Rocking around the clock

sometimes gives six or seven interviews in a day.

The members of the Bon Jovi rock band usually travel to and from their jobs by minibuses. The windows are dark so people can't see them. People always get excited when they see us and we don't want any car accident. When they travel long distances, they go by helicopter or plane.

Show time

At ten o'clock it's time for Bon Jovi to go out on stage and start their show. Their concerts last about two hours. After the show they usually go to a restaurant and relax. We're always on a high after a show. So we don't go immediately to bed.
