| Form                                              | Example                                                               |
|---------------------------------------------------|-----------------------------------------------------------------------|
| (Number) <b>minus</b> (number) <b>is</b> (number) | $23 - 12 = 11$<br>Twenty – three <b>minus</b> twelve <b>is</b> eleven |

#### III. Exercises

##### 1. Choose and write the answer.

89 minus 15 is

51

76 minus 25 is

74

61 minus 14 is

47

93 minus 27 is

53

68 minus 15 is

66

## 2. Complete.

$$78 \text{ minus } 12 \text{ } \text{ } \text{ minus } 22 \text{ } \text{ }$$

$$95 \text{ minus } 25 \text{ } \text{ } \text{ minus } 18 \text{ } \text{ }$$

## 3. Complete.

|    |   |    |   |    |   |    |    |   |      |
|----|---|----|---|----|---|----|----|---|------|
| 74 | - |    | = |    |   | -  | 12 | = |      |
| -  |   |    |   | -  |   | -  |    |   | -    |
|    | - |    | = | 23 |   | 32 | -  |   | = 18 |
| =  |   |    |   | =  |   | =  |    |   | =    |
| 21 |   | 51 | - | 23 | = |    |    |   |      |
