V. Read the passage and circle the best answer

It is very important for us to have healthy teeth. Good teeth help us to chew our food. They also help us to look beautiful. How can we keep our teeth healthy? First, we should visit our dentist twice a year. He can fill the small holes in our teeth before they destroy the teeth. He can examine our teeth to check that they are growing in the right way. Unfortunately, many people wait until they have toothache before they go to the dentist. Second, we should brush our teeth with a toothbrush and fluoride toothpaste at least twice a day – once after breakfast and once before go to bed. We can also use wooden toothpicks to clean between our teeth after a meal. Finally, we should eat food that is good for our teeth and our body: milk, cheese, fish, brown bread, potatoes, red rice, raw vegetables, and fresh fruit. Chocolate, sweets, biscuits and cakes are bad, especially when we eat them between meals. They are harmful because they stick to our teeth and cause decay.
