

1. Escribe las fracciones correspondientes, simplifica y completa el resultado.

$$\blacksquare \frac{1}{2} + \frac{1}{2} = \frac{\square}{\square} = \frac{\square}{1}$$

$$\blacksquare \frac{3}{4} + \frac{1}{4} = \frac{\square}{\square} = \frac{\square}{2} = \frac{\square}{\square}$$

$$\blacksquare \frac{1}{4} + \frac{1}{4} = \frac{\square}{\square} = \frac{\square}{2}$$

$$\blacksquare \frac{1}{8} + \frac{3}{8} = \frac{\square}{\square} = \frac{\square}{4} = \frac{\square}{2}$$
