

That'll keep you going through the show

There'll be no more aaaaaaaah!

Get you on your feet again

Is there anybody in there?

Can you show me where it hurts?

Relax

I hear you're feeling down

"Comfortably Numb"

When I was a child I had a fever

Your lips move but I can't hear what you're saying

You are only coming through in waves

The dream is gone

My hands felt just like two balloons

There is no pain, you are receding

I caught a fleeting glimpse

Out of the corner of my eye

Just the basic facts

This is not how I am

Can you stand up?

Your lips move but I can't hear what you're saying

I have become comfortably numb

I cannot put my finger on it now

There is no pain you are receding

A distant ship smoke on the horizon

O.K.

I do believe it's working, good

I turned to look but it was gone

The child is grown

Hello

I have become comfortably numb

You are only coming through in waves

Well, I can ease your pain

Come on, it's time to go

But you may feel a little sick

I have become comfortably numb

A distant ship smoke on the horizon

Just a little pin prick

Just nod if you can hear me

Come on now

When I was a child

Now I've got that feeling once again

Is there anyone at home?

I'll need some information first

I can't explain, you would not understand
