

THE THUNDERMANS

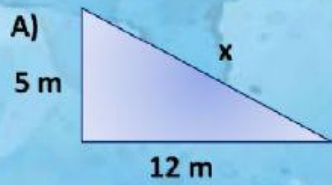

EM

TEOREMA DE
PITÁGORAS

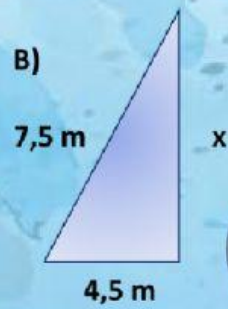

LIVEWORKSHEETS

01 - Obtenha, em metros, o valor de x em cada caso a seguir:

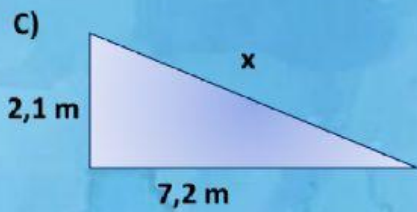

X = m

X = m

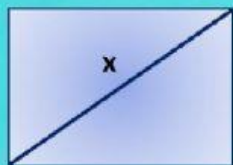

Teorema de
Pitágoras:
 $h^2 = a^2 + b^2$

X = m

D)

6 m

$$x = \square \text{ m}$$

8 m

E)

x

x + 1

$\sqrt{61} \text{ m}$

$$x = \square \text{ m}$$

F)

x - 3

x - 6

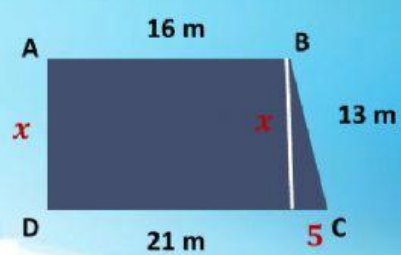

x

$$x = \square \text{ m}$$

LIVEWORKSMATHS.COM

02 – Calcule o perímetro do trapézio a seguir:

P = m
