3 Read and complete the table for kangaroos.

Kangaroos are my favourite animal. They only live in the wild in Australia. There aren't any kangaroos in other countries. They can be 150 cm tall, and their tails can be 120 cm long. They can run at 70 kilometres per hour. Kangaroos are brown or grey in colour. They've got about 30 teeth and they eat plants and leaves. Groups of kangaroos are called mobs.
