Module 1:

Lesson 6: Convert Customary Measurement Units

Refer Book page: 47

Note: In the table, if you move from
Left to right then you have to multiply "x"
Right to left then you have to divide "÷"

1. 12 yard = feet

2. 3 ton = pounds

3. 14 pints = cups

4. 22 gallons = quarts

5. 7 cups = fluid ounces

6. 9 pints = quarts

7. 15 feet = yards
