Part 1 : COMPREHENSION (Questions 1-5)
Read the following story and answer the questions below.

Our new neighbours moved in last Sunday. We took the initiative to go over to their house and introduce ourselves to them. They were pleasantly surprised that we were so friendly to them. They are a small family, consisting of four members. I myself am happy to find that their son will be in the same class as me in the coming year.

We gave a helping hand to our new neighbours, like carrying their cupboard, furniture and others from the lorry into their house. As **many hands make light work**, we managed to complete the task within one hour. Mother had also prepared some snacks and drinks for them. Obviously they were delighted to have something to bite and drink to quench their thirst.

Our neighbours were more than grateful to our help. They thanked us profusely, remarking that they were fortunate to have friendly neighbours like us. We also exchanged our telephone numbers, telling them that they could call us if they needed further help.
