

1. Jaiden has 54 910 roblox bucks and Reno has 11 266 roblox bucks. Estimate how much roblox bucks do they have altogether by rounding to the nearest thousand.

$$54\,910 \rightarrow 55\,000$$

$$11\,266 \rightarrow 11\,000$$

$$55\,000 + 11\,000 = 66\,000$$

They have about 66 000 roblox bucks.

2. Kristen's zoo has 3 400 flamingos. 1 420 of the flamingos are babies. About how much flamingos are adults. Round to the nearest thousand.

3. Mrs. Johnson is a beekeeper. She has 2 beehives with 41 425 bees in each hive. About how many bees does she have altogether. Round your answer to the nearest ten thousand.
