

MATEMATIK

NAMA:

KELAS: INTAN

Tajuk: operasi tolak (pengiraan cara menaik)

Selesaikan

$$10 - 6 = \square$$

A green chalkboard with a wooden frame. The word 'Selesaikan' is in the top left. The equation $10 - 6 = \square$ is written in white. The number 6 is circled in red. Below it, a group of 6 ants is circled in green. An arrow points from the green circle to the empty box.

Selesaikan

$$10 - 5 = \square$$

A green chalkboard with a wooden frame. The word 'Selesaikan' is in the top left. The equation $10 - 5 = \square$ is written in white. The number 5 is circled in red. Below it, 5 diagonal lines are circled in green. An arrow points from the green circle to the empty box.

Selesaikan

$$12 - 7 = \square$$

A green chalkboard with a wooden frame. The word 'Selesaikan' is in the top left. The equation $12 - 7 = \square$ is written in white. The number 7 is circled in red. Below it, a group of 7 flowers is circled in green. An arrow points from the green circle to the empty box.

Selesaikan

$$13 - 11 = \square$$

A green chalkboard with a wooden frame. The word 'Selesaikan' is in the top left. The equation $13 - 11 = \square$ is written in white. The number 11 is circled in red. Below it, 11 diagonal lines are circled in green. An arrow points from the green circle to the empty box.

Selesaikan

$$14 - 8 = \square$$

A green chalkboard with a wooden frame. The word 'Selesaikan' is in the top left. The equation $14 - 8 = \square$ is written in white. The number 8 is circled in red. Below it, a group of 8 bees is circled in green. An arrow points from the green circle to the empty box.

Selesaikan

$$17 - 10 = \square$$

A green chalkboard with a wooden frame. The word 'Selesaikan' is in the top left. The equation $17 - 10 = \square$ is written in white. The number 10 is circled in red. Below it, 10 diagonal lines are circled in green. An arrow points from the green circle to the empty box.

Selesaikan

$$11 - 9 = \square$$

A green chalkboard with a wooden frame. The word 'Selesaikan' is in the top left. The equation $11 - 9 = \square$ is written in white. The number 9 is circled in red. Below it, a group of 9 fish is circled in green. An arrow points from the green circle to the empty box.

Selesaikan

$$16 - 12 = \square$$

A green chalkboard with a wooden frame. The word 'Selesaikan' is in the top left. The equation $16 - 12 = \square$ is written in white. The number 12 is circled in red. Below it, 12 diagonal lines are circled in green. An arrow points from the green circle to the empty box.

Selesaikan

$$15 - 10 = \square$$

A green chalkboard with a wooden frame. The word 'Selesaikan' is in the top left. The equation $15 - 10 = \square$ is written in white. The number 10 is circled in red. Below it, 10 spiders are circled in green. An arrow points from the green circle to the empty box.
