Date: _____

Rounding Using a Table

An old census reported these regional populations.

Region	Population
New England	6,552,681
Middle Atlantic	19,313,892
North central	18,650,621
South Central	22,432, 816
East South Central	8,489,901
West South Central	8,534,534
Mountain	2,633,517
Pacific	4,192,304

Use the table to answer the questions.

1. Was the number of people in New England nearer to 6,000,000 or 7,000,000? _____
2. Which region had a population between 20 million and 25 million?

3. Which region had the smallest population? _____
4. Which region had a population of about 4,000,000?

5. Was the number of people in the Middle Atlantic region nearer to 19,000,000 or 20,000,000? _____
6. Which region had the smaller population, East South Central or West South Central? _____

7. Round each number in the table to the nearest million.

- a. New England, _____
- b. Middle Atlantic, _____
- c. North Central, _____
- d. South Atlantic, _____
- e. East South Central, _____
- f. West South Central, _____
- g. Mountain, _____
- h. Pacific, _____

8. What is the total population after rounding each number to the nearest million? _____

9. Which two regions had a population of 19,000,000 when rounded to the nearest million? _____ and _____

10. Which two regions had a population of 8,500,000 when rounded to the nearest hundred thousand? _____ and _____
