

Yesterday Robin was with his older cousin "The Shark." The Shark is naughtier and richer than Robin. He lives in a very big castle on an island. There are a lot of sharks in the ocean close to his castle and they're his favorite animal. He loves water and he goes swimming every day in any weather. He was in the ocean yesterday morning when there wasn't any sun and it was very windy. It wasn't much fun for Robin but The Shark was happy. The weather was better in the afternoon and they were on The Shark's red boat. It's bigger and faster than his yellow boat. The Shark loves fishing, but he isn't very strong. After three hours there weren't any fish in his basket. Robin's very strong and there were five fish in his basket. He was happy, but The Shark was very angry!
