Read the following passage and answer the questions that follow:

Papaya is a healthy fruit with a list of properties that is long and exhaustive. You can munch on it as a salad, have it cooked or boiled or just drink it up as milkshake or juices. Papaya has many virtues that can contribute to our good health. The most important of these virtues is the protein-digesting enzyme it has. The enzyme is similar to pepsin in its digestive action and is said to be so powerful that it can digest 200 times its own weight in protein. It assists the body in assimilating the maximum nutritional value from food to provide energy and bodybuilding materials. Papain in raw papaya makes up for the deficiency of gastric juice and fights excess of unhealthy mucus in the stomach and intestinal irritation. The ripe fruit, if eaten regularly corrects habitual constipation, bleeding piles and chronic diarrhea. The juice of the papaya seeds also assists in the above-mentioned ailments. Papaya juice, used as a cosmetic, removes freckles or brown spots due to exposure to sunlight and makes the skin smooth and delicate. A paste of papaya seeds is applied in skin diseases like those caused by ringworm.

The black seeds of the papaya are highly beneficial in the treatment of cirrhosis of the liver caused by alcoholism, malnutrition, etc. A tablespoonful of its juice, combined with a hint of fresh lime juice, should be consumed once or twice daily for a month. The fresh juice of raw papaya mixed with honey can be applied over inflamed tonsils, for diphtheria and other throat disorders. It dissolves the membrane and prevents infection from spreading.

Read the following passage and answer the questions that follow:

This is a great lesson for all of us to learn, that in all matters the two extremes are alike. The extreme positive and the extreme negative are always similar. When the vibrations of light are too slow we do not see them, nor do we see them when they are too rapid. So with sound; when very low in pitch we do not hear it, when very high we do not hear it either. Of like nature is the difference between resistance and non-resistance. One man does not resist because he is weak, lazy and cannot; because he will not; the other man knows that he can strike an irresistible blow if he likes; yet he not only does not strike, but blesses his enemies. The one who from weakness resists not commits a sin, and as such cannot receive any benefit from the non-resistance, while the other would commit a sin by offering resistance. —Swami Vivekananda.

Q1: "... in all matters two extremes are alike", means:

- (a) Powerful men always gain success
- (b) All human beings are of same characters
- (c) Boys and girls are equally talented
- (d) The extreme positive and the extreme negative are alike

Q2: When the sound is in low pitch:

- (a) we fail to hear it
- (b) we can hear it easily
- (c) it pleases us
- (d) we feel dizzy

Q3: Too rapid vibrations of light:

- (a) can be easily seen
- (b) cannot be seen
- (c) should be enjoyed
- (d) both (b) and (c) are correct

Read the following passage and answer the questions that follow:

Have you ever heard the sound of a hummingbird? Hummingbirds make a buzzing noise when they fly. They make this noise because they beat their wings very fast. They beat their wings up to 80 times a second. All that flapping makes a lot of noise. That's why we call them hummingbirds. Hummingbirds fly in a unique way. They move their wings so fast that they can hover. This means that they can stay in one spot in the middle of the air. They are the only birds that fly backward too. Hummingbirds need lots of energy to move as fast as they do. This means that they need to eat a lot of food. Their favourite food is nectar, a sweet liquid found inside some flowers. They drink nectar in large quantities daily. They have to visit hundreds of flowers to get enough nectar to live. Hummingbirds use their tongues for eating, not their long beaks. Hummingbirds help flowers too. They get pollen on their heads and bills when they feed. Flowers use pollen to make seeds. Hummingbirds spread pollen from one flower to the other. This helps flowers make more seeds. More seeds mean more flowers. More flowers mean more food for hummingbirds. Isn't it nice how that works out?

Q1. Why are the humming birds called 'hummingbirds'?

- a) They are very light.
- b) They sing when they fly.
- c) Their wings make a humming sound.
- d) They move very fast.

Q2. What is the specialty of humming birds?

- a) They can move their wings very fast.
- b) They can fly backward.
- c) They have a lot of energy.
- d) All of the above.

Q3. Where do the hummingbirds find their food?

- a) on the surface of the flowers
- b) they eat pollen
- c) inside the flowers
- d) from the seeds

Q4. What is the function of pollen?

- a) It works as fertilizer.
- b) It helps flowers to make more seeds.
- c) It helps flowers to make more petals.
- d) It makes hummingbirds healthy.

Q5. What is the synonym of the nectar?

- a) water
- b) poison
- c) honey
- d) all the above.

Read the following passage and answer the questions that follow:

Conversation is indeed the most easily teachable of all arts. All you need to do in order to become a good conversationalist is to find a subject that interests you and your listeners. There are, for example, numberless hobbies to talk about. But the important thing is that you must talk about the other fellow's hobby rather than your own. There lies the secret of your popularity. Talk to your friends about the things that interest them and you will get a reputation for good fellowship, charming wit and brilliant mind. There is nothing that pleases people so much as your interest in their interests.

It is just as important to know what subjects to avoid as what subject to select for good conversation. If you don't want to set down a wet blanket or bore, be careful to avoid certain unpleasant topics. Avoid talking about yourself unless you are asked to do so. People are interested in their own problems, not in yours; sickness or death bores everybody. The only one who willingly listens to such talk is the doctor; but he gets paid for it.

1. The basic need of a good conversation is:
 - (i) clarity in speech
 - (ii) clarity in thought
 - (iii) a subject that interests both speaker and listener
 - (iv) a subject of speaker's interest
2. The most important thing in a good conversation is:
 - (i) to talk about your hobbies
 - (ii) to talk about the other fellow's hobby
 - (iii) to talk about current affairs
 - (iv) to talk about weather
3. What should be avoided in good conversation?
 - (i) unpleasant topics
 - (ii) the talk about others
 - (iii) praise of the listener
 - (iv) the interests and problems of others
4. The appropriate title for the passage is:
 - (i) Art of Characterisation
 - (ii) Art in Good Conversation
 - (iii) Art of Good Conversation
 - (iv) Art as a Good Conversation
5. Choose the synonyms of illness, demise and genius:
 - (i) sickness, death, brilliant
 - (ii) interest, death, doctor
 - (iii) sickness, fever, best
 - (iv) general, bore, unpleasant

Patriotism is an old concept, as old perhaps as the earliest of human civilizations. But all through the history of mankind, it has been narrowly understood. Today people have begun to realise that patriotism is an essential part of human instinct. Patriotism has its negative sides particularly when it exceeds its proper bounds. People who think their

own country to be the best and are blind to its weaknesses are not patriots at all.

We are the members of a large human family and so cannot neglect our duties and responsibilities towards it. Our love for the country should be conditioned by respect for the whole community. Narrow prejudice can do nothing except to bring misfortune. In trying to overlook others' interest in the modern world, we harm our own. Patriotism should be tempered with reason so that it may not be an evil.
