

Name \_\_\_\_\_

Reteach to Build  
Understanding

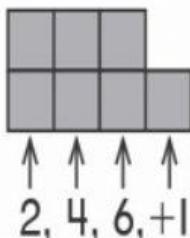

**2-2**

 **Vocabulary** \_\_\_\_\_

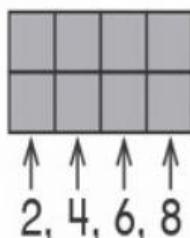

1. Write the number for each model.

If you *can* skip count squares by 2s, the number is **even**.

If you *can't* skip count squares by 2s, the number is **odd**.

The number is \_\_\_\_\_.  
2, 4, 6, +1

The number is \_\_\_\_\_.  
2, 4, 6, 8

You *can't* skip count by 2s.

The number is \_\_\_\_\_.

This model shows the

equation  $3 + 4 =$  \_\_\_\_\_.

You *can* skip count by 2s.

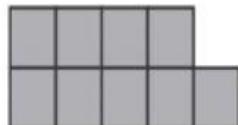

The number is \_\_\_\_\_.

This model shows the

equation \_\_\_\_\_ + \_\_\_\_\_ = \_\_\_\_\_.

2. Write the number for each model. Circle even or odd.

Then write the equation.

\_\_\_\_\_

even

odd

$$\underline{5} + \underline{5} = \underline{10}$$

even

odd

$$\underline{\quad} + \underline{\quad} = \underline{\quad}$$

even

odd

$$\underline{\quad} + \underline{\quad} = \underline{\quad}$$
