Grade 10 Biology

Ecological Terms

Instructions: Watch the video with the given ecological terms and fill in the blanks correctly with each term or definition.

Term	Definition
Species	
	Populations of different species in a specific geographic area.
Biosphere	
	A group of organisms in a specific geographic area.
	A community of organisms in a habitat, plus the non-living part of the environment

Note: These order of terms as organized in this table does **NOT** follow the hierarchy level of ecological organization.
