My Pet, My Family.

Yesterday I am walking by the street when i saw a beautiful little cat, it was dirty so I took it home, in me house, I had two cat already, so now I have tree cats. I named them Simon, Snow Ball and Little Dirty to the new one. When you have an pet, you have to know that they eat a lot and my cats really likes fishes, every week I go to the store to buy fifteen five (55) fishes for my three cats, I spend a lot of money but a like cats, actually I would like to have more cats in my house.

Let me talk a little about they, Little Dirty is the more dirty pet in my house. Simon is cleaner than Snow Ball, but Snow Ball are beautifuler.

Which cat would you like? well if you ask me, I does not what to say, I love them all, they are all great, one day, Snow Ball eated a lot, even I has to take it to the vet that day because he got sick. Aside from my cats I have other pets, for example a have a dog big, it fast run and sometimes I walk with him by the street.

No matter what kind of pets you have, they is all beautiful and I will be love them all my life.
