

ISICANA
2ND JUNIORS

STUDENT'S NAME: _____

BOOK: METRO 1

UNITS: 4 & 5

TEST 3

- 1- Maggie and Matt are friends. They are reading a magazine about amazing animals. Read the text.
Then answer the questions (5x2=10)

GIRAFFES

Giraffes are incredible animals. They are African mammals. You can find them in the savannah. In the wild, giraffes are very calm. However, they sleep only twenty minutes a day because they need to stay alert and watch for predators. They usually sleep standing. Giraffes are very tall. They have a long neck that helps them to eat flowers and leaves from tall trees. Giraffes use their tongue to get food. Their favorite type of food is the acacia tree. They have four stomachs so they eat a

lot! Giraffes don't need to drink water every day because acacia trees contain water.

They have brown spots on their fur and each giraffe is different.

A baby giraffe is called a calf. The calf drinks its mother's milk.

Giraffes can jump, swim and run very fast.

There are about 68.000 giraffes in the wild!

Answer the questions:

- 1- **Where** do giraffes live?

- 2- **What** do they eat?

- 3- **What** is giraffes' favorite tree?

- 4- **Do** they drink water every day? **Why?**

- 5- **How many** giraffes are there in the wild?

2- Read the text again and choose true or false. (5x1=5)

- 1- Giraffes sleep twenty hours a day. ☐ TRUE ☐ FALSE
