## **Percentages**

## Complete the following

3. In a test I got 89 out of 100, what percent did I receive?

## Change the following fractions to percentages.

## Remember you can change the fractions to decimals

Eg. 
$$\frac{9}{10}$$
 = 0.9 / 0.90 = 90%  $\frac{12}{100}$  = 0.12 = 12%

$$\frac{1}{10} = \frac{2}{100} = \frac{2}{100}$$

$$\frac{9}{10} = \frac{4. \frac{54}{100}}{100} = \frac{4. \frac{54}{100}}{$$

$$\frac{5.}{10} = \frac{6.}{100} = \frac{42}{100} = \frac{6.}{100}$$

$$\frac{7.}{10} = \frac{8.}{100} = \frac{79}{100} = \frac{1}{100}$$

Convert the percents into fractions with a denominator of 100, then simplify if possible.
