Comparing and Ordering Numbers

The table below shows the population of five islands in The Bahamas from a census taken in 2010. Use the information on the table to answer the questions that follow.

Islands	Population
Abaco	16 025
Inagua	911
Andros	7 242
New Providence	248 948
Grand Bahama	51 756

1) Which island has the highest population?

_____

2) Which island has the lowest population?

_____

3) Which island has a population less than 1 000 ?

_____

4) What is the combined population of Grand Bahama and Abaco?

_____

5) How many more people live on Andros than Inagua?

_____

LIVEWORKSHEETS

6) Arrange the population of the islands in ascending order (least to greatest).

16 025	911	7 242	248 948	51 756
_____	_____	_____	_____	_____
