Comparing and Ordering

The following table shows the number of votes each political party received. Use the table to answer the questions that follow.

Political Party	Number of Votes
Free National Movement (FNM)	45 730
Democratic National Alliance (DNA)	1 742
Progressive Liberal Party (PLP)	66 407
Coalition of Independents (COI)	8 560

1) Which party received the least number of votes?

2) Which party received the most votes?

3) How many more votes did COI receive than the DNA?

4) What is the sum of the **FNM** and **PLP** votes?

5) Arrange the number of votes in ascending order (least to greatest).

45 730 1 742 66 407 8 560

6) Arrange the number of votes in descending order (greatest to least).

45 730 1 742 66 407 8 560
