HOW TO PLANT

Flower in a Pot

Materials Needed

Pot Flower Dipper Grass Pail Soil Water Trowel

Unnecessary Material

First, fill the pot with the soil up to the top of the pot.

And then, insert the root and rootstock of your flower into the hole, and fill with soil.

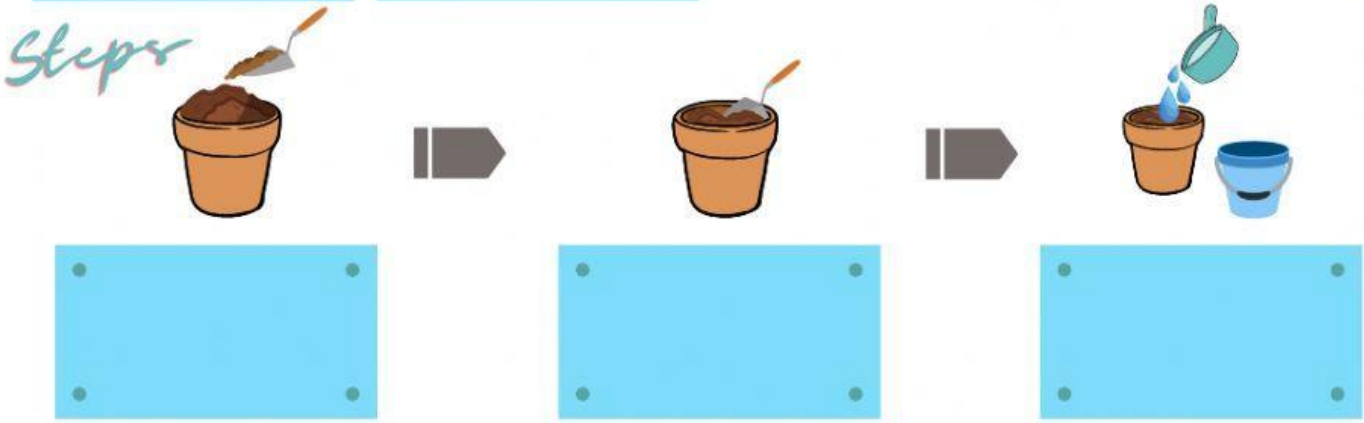

Second, compact the soil and make a hole in the center.

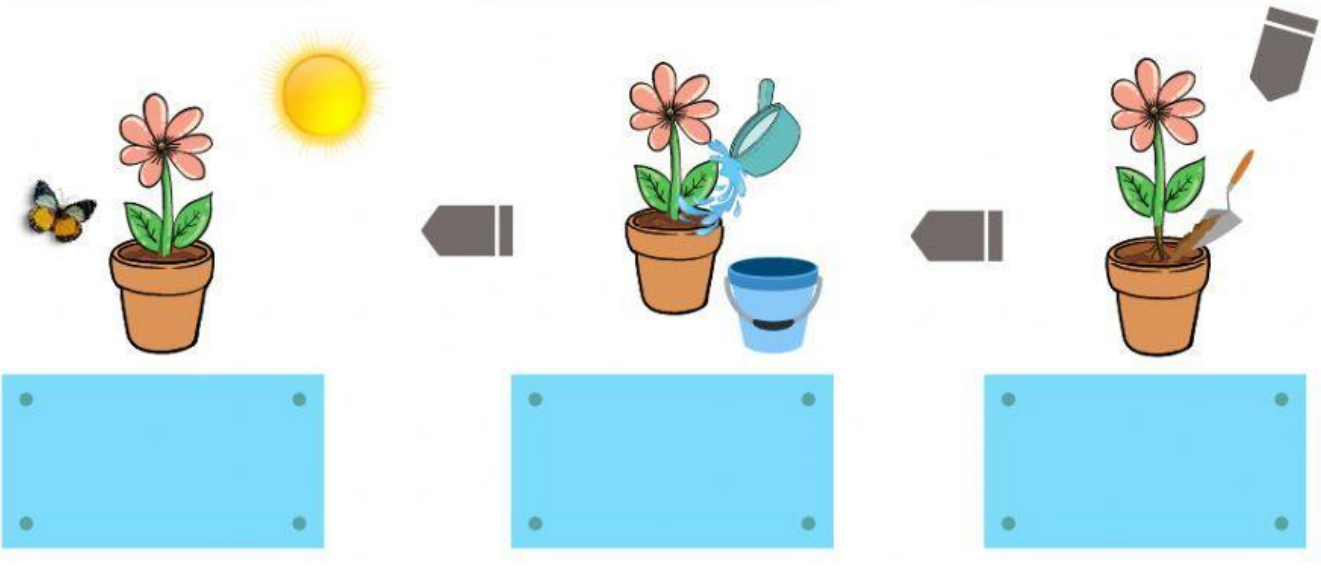

Next, keep the soil moist by adding some water.

After that, water your flower until the soil feels moist.

Finally, you have a beautiful flower in a pot.
