Part IV – Measuring Vital Signs

Direction: Read the conversation below, analyze the given information and answer the questions.

Measuring Vital Signs

Nurse: Good morning Mrs. Diaz. Kindly take off your shoes and stand on the weighing scale. Please turn around and stand up straight. Your weight is 68 kilograms and your height is 170 centimeters. You may put your shoes on and take a seat. Let me check your temperature.

Patient: Go ahead.

Nurse: Your temperature is normal it's 36.8 deg. Celsius. May I take your blood pressure?

Patient: Yes you may.

Nurse: Rest your arm on the table.

Patient: Ok this arm

Nurse: Yes Ma'am I'm going to put this cuff around your arm. You will feel some pressure from the cuff. The machine will read your blood pressure. Your blood pressure is high, it is 150 over 90. I will give this information to your doctor. Just relax and wait for your cue number to be called.

Patient: Thank you so much.

Nurse: You're welcome Ma'am.

1. How heavy and tall is Mrs. Diaz?

Part V – Food Poisoning

Direction: Read the conversation below, analyze the given information and answer the questions.

Conversation : Food Poisoning

Sister: How is my sister? We had a seafood dinner last night, she got quite sick.

Nurse: She has food poisoning, and it could be that the food was not clean, or that she has an allergy.

Sister: How can you find out?

Nurse: We have tests to identify allergies. She has a rash all over her body so I suppose that she does have an allergy.

Sister: She has been throwing up a lot.

Nurse: Yes she still is, fortunately there is no blood.

Sister: What can we do to protect our stomach?

Nurse: Eat a balanced diet; avoid too much alcohol, smoking, stress and medication which can damage the stomach.

Sister: Oh I see.

Nurse: If you have chronic stomach problem you should not eat too much spicy or fatty food and rich or fried food. Just eat enough to satisfy your appetite. It is also advisable not to eat before going to bed.

Sister: You have given me a lot of advice which I appreciate and will discuss with my sister. When do you think she can be discharged?

Nurse: The doctor prescribed that she could probably go home this evening or first thing tomorrow morning.

Sister: Thank you very much Nurse.

Nurse: It's my pleasure Ma'am. Do you plan to take her home?

Sister: Yes, I do. I would be grateful if you can call me for any update.

Nurse: Yes, I will. Please write down your number and we'll call you ASAP.
