

At the end of this lesson, you should be able to:

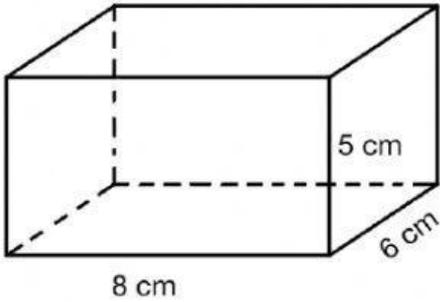

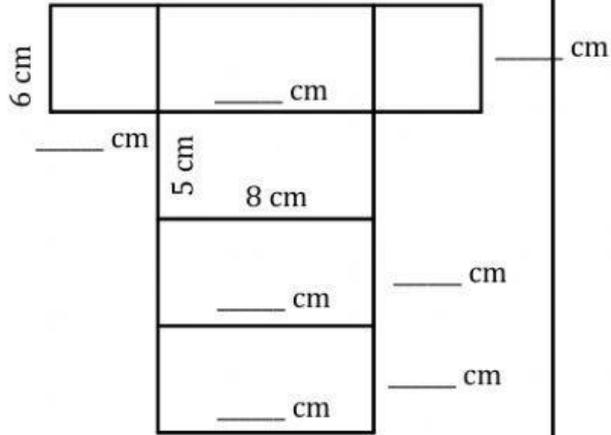

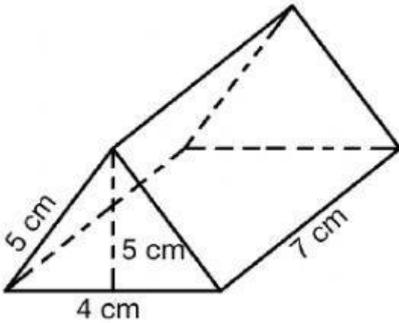

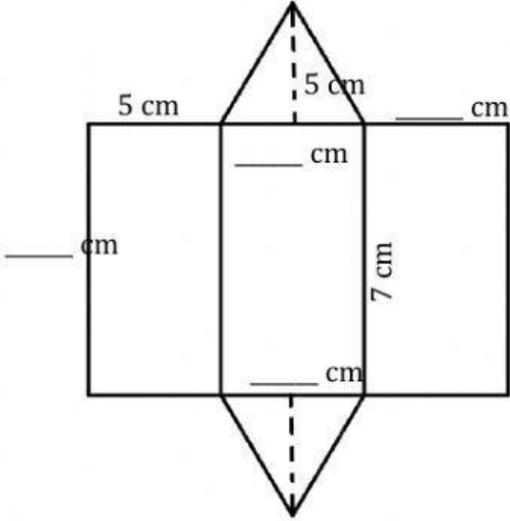

- Label the nets of solids with correct measurement

# Time, Perimeter, Area & Volume

## Surface Area

No	Question	Answer
1	<p>Find the surface area of the cuboid below:</p> 	<p>Draw the nets of the cuboid with the correct measurement.</p>  <p><math>Area A = 5 \times 10 = 50 \text{ cm}^2</math> <math>Area B = 8 \times 10 = 80 \text{ cm}^2</math> <math>Area C = 5 \times 8 = 40 \text{ cm}^2</math></p> <p><i>Surface Area</i> <math>= (2 \times Area A) + (2 \times Area B) + (2 \times Area C)</math> <math>= (2 \times 50) + (2 \times 80) + (2 \times 40)</math> <math>= 100 + 160 + 80</math> <math>= 340 \text{ cm}^2</math></p>
