Uses of Materials

Precious materials

Some materials are very expensive to buy. They are often used to make jewellery.

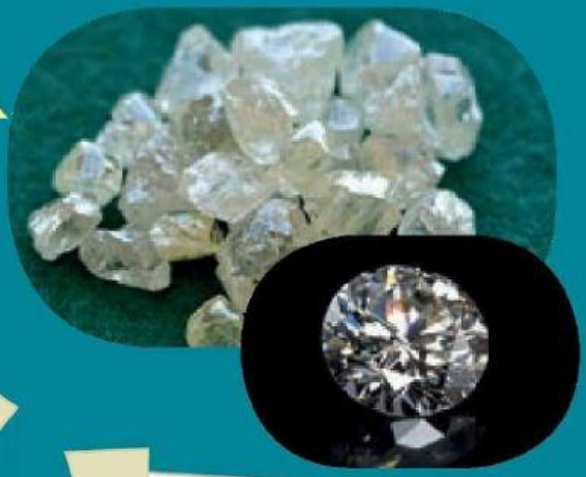

Most of these materials are natural and need to be dug out of the ground by miners.

They then need to be polished and shaped to make the jewellery.

Find out

Find out about other precious materials used in making jewellery. Where do they come from? How many can you list?

Things to do

Mining can be very dangerous. Mining can also be very exciting! Would you like to be a miner one day?
