**A. Listen and fill in the blanks. DSKP LS1.3**

Mr. Muthu : Welcome to India's tiger conservation centre. Are you excited to learn about the tigers?

Fira : Yes. I actually volunteered because I wanted \_\_\_\_\_ (1).

Mr. Muthu : That's great! You made the right choice. We keep tigers here to protect them, unlike at zoos where they keep tigers for people to see. Some zoo's don't take \_\_\_\_\_ (2) of the tigers they have.

Fira : That's so sad. But why do we need to \_\_\_\_\_ (3) tigers?

Mr. Muthu : The reason is because they aren't many tigers any more.

Fira : Why? What has happened to them?

Mr. Muthu : Humans destroy their \_\_\_\_\_ (4) to build homes and buildings. People also hunt many tigers because their bones are used to make traditional Asian medicine.

Fira : Oh no! So they are killed to \_\_\_\_\_ (5) ?

Mr. Muthu : Yes. But since tigers often eat livestock, farmers also kill tigers to stop them. So, tigers are now endangered which means they are \_\_\_\_\_ (6) of becoming extinct.
