Hi,

Lately I have been feeling low because of my skin issues. There are many pimples on my face and my skin complexion is uneven on some spots. My mother bought some over-the-counter skin care products made in Thailand but I'm not sure if I should use it? What do you think I should do?

Jon

Hi \_\_\_\_\_,

I feel so (sad/happy/excited/angry/sorry) that you're going through skin problem. I want you to know that it's a very normal problem for teenagers to have pimples. I think you (should / should not ) use the product your mom gave you because \_\_\_\_\_  
\_\_\_\_\_. If I were you, I would use \_\_\_\_\_. You (should / should not ) pinch your pimples because it will \_\_\_\_\_  
\_\_\_\_\_. Try to feel (stressed / relaxed) because it helps to calm down your (cell / hormones). Hope \_\_\_\_\_
