UNIT 7

READING C. TEST

GRADE 4

1 Look and read about the future. Correct the sentences.

1 People won't go shopping. People will go SHOPPING.

2 People won't travel by tram. _____

3 There won't be ice rinks. _____

4 Motorbikes won't fly. _____

5 Planes will look like trains. _____

6 Teachers will drive trams. _____

2 Read and choose the letter.

My teacher is a robot

What do you think? Will robots teach children in the future? It's possible. In South Korea scientists are working on a robot to teach English to their students.

They want to create a robot that looks like a person. The robot's face changes when it's angry, happy or tired. It will have arms and it will write on the board. It will speak and help students with their pronunciation.

The scientists created an example of this robot teacher. It's got bright colours and it looks more like a penguin than a person. Scientists say that students will listen to their robot teacher in class and will like it because it looks like a toy.

1 Scientists are making a robot for (a) **British** / (b)**South Korean** / (c)**American** students [b]

2 The robot will have (a) **different expressions** / (b)**the same face** /(c) **an angry voice**.

3 It will do things (a) **parents** /(b) **teachers** / (c)**students** do.

4 Students will (a) **write** /(b) **speak** / (c)**read** better with the robot.

5 The example robot doesn't look like (a) **a person** / (b)**an animal** /(c) **a bird**.

6 Students won't (a) **learn** /(b) **have fun** / (c)**get bored** with the robot teacher.
